Using Padlet

Before the conference, we kindly ask that you create a Padlet account and begin to engage with other MDP members.

How to use Padlet:

- Watch video tutorial: https://youtu.be/delW1Jtoq_w

Now that you watched the video, to become familiar and comfortable using Padlet, click https://padlet.com/vshirley/qubp526lgo2keuyx. This Padlet serves to introduce ourselves with other conference participants (password: MDP2021).

- After you enter the password, a Padlet map will open. You will be asked to “Sign up” or “Log in”. If you do not have an account, please:
  1.) Create an account by clicking on “Sign up” on the upper right-hand corner of the page (you may sign-up at no charge with the “Basic” package).
2.) Update your profile name using your first and last name by clicking on the blue circle on the upper right-hand corner of the screen.

3.) Tell us where you are joining from by following instructions #1-3 in Padlet map!
4.) Let’s continue to build our relations with Padlet #2 which is a Virtual Mixer, https://padlet.com/ingrique/a7ssp7kr3cgawfa7. Add your comments within each post-it question.

We look forward to meeting on Padlet and seeing you on the other side of the screen on June 21st & 22nd!

😊
